"On June 18, 2020, Governor Ron DeSantis signed a bill into law that imposes burdensome requirements on women's health care through requiring written consent for any pelvic examination, whether it be done in a hospital setting, physician's office, by a nurse practitioner, or otherwise. This law takes effect on July 1, 2020. While the goal of this bill was initially to protect patients in certain training contexts, the legislation was amended to contain broad sweeping language that means that in Florida any health care practitioner is prohibited from providing any pelvic examination on a patient—a common, medically appropriate procedure— without the written consent of the patient.

I hereby give the physicians, midlevel's and medical assistants of **UROLOGY GROUP OF FLORIDA** permission to perform a pelvic examination or related tests/
procedures that involves the pelvic anatomy, to diagnose and/or treat my
symptoms or urologic issues

Dear Patient:

As part of our EHR (Electronic Health Record) Program, we are testing the ability to provide our patients with a clinical summary of your last visit with your Physician.

If you wish to receive a clinical summary, please contact the office where you were seen. The office will print a copy and you can pick up from the office within 3 business days following your appointment.

Please review the clinical summary. We believe the summary will provide you with relevant information from your visit. If you notice any major discrepancies, you may send a written request for changes to the office in which you were seen. If you prefer, you may bring the changes to your next visit.

Thank you, Urology Group of Florida

To the patient,

I understand that as part of my healthcare, this organization originates and maintains health records describing my health history, symptoms, examination and test results, diagnosis, treatment, and any plans for future care and treatment.

I also understand this information serves as:

- · A basis for planning my care and treatment
- · A means of communication among the many health professionals who contribute to my care
- · A source of information for applying my diagnosis and surgical information to my bill
- A means by which a third-party payer can verify that services billed were actually provided
- · And a tool for routine healthcare operations such as assessing quality and reviewing the competence of
- Healthcare professionals.

I understand that I have the right to:

- To object the use of my health information for directory purposes.
- To request restrictions as to how health information may be used or disclosed to carry out treatment, payment or healthcare operations and that the organization is not required to agree to the restrictions requested.
- To revoke this consent in writing, except to the extent that the organization has already taken action in reliance thereon.

In general, the HIPAA privacy rules give individuals right to request a restriction on uses or disclosures of their protected health information (PHI). The individual is also provided the right to request confidential communications or that communication of PHI be made by alternative means, such as sending correspondence to an address other than your home address.

The physicians and staff of Urologic Physicians and Surgeons, P.A respect your privacy and wish to make all reasonable attempts to respect your wishes regarding your confidential information. With that in mind, please indicate your preference for the areas noted below.
